

The Fitzpatrick Nation Genealogy Register ©

Steve Zalewski

The Fitzpatrick Nation Genealogy Register© is a centralized database composed of names, event, dates, places, and sources of information. The Register combines content from several sources including:

1. *The Descendants of Bryan Fitzpatrick, Lord and First Baron of Upper Ossory*, by Steve Zalewski and Ronan Fitzpatrick
2. Families of Macgiolla Padraic as recorded in Rev. John Shearman's *Ossorian Genealogy Charts*
3. The Collection of Fitzpatrick Research – a collection of Fitzpatrick genealogical research performed by nearly 130 family researchers world-wide
4. Other Fitzpatrick Lineages – a body of research containing multiple generations of Fitzpatricks who are not connected to the First Baron.

The Register includes names and events from any of these sources that have a date and location and provides a method to search all these sources in a single search. Due to privacy constraints of living individuals, this database may not be distributed to the general public. However, The Register may put a requestor in contact with someone that has submitted individuals with similar information. This process is described below.

To make a request to search The Register, send email to me at szalewski2000@yahoo.com after 1 Feb 2026. Include in the email the full name of the Fitzpatrick to search in the subject line. In the body of the email include a 10-year search range and the city/townland or county to search. I will search The Register using that criteria for an individual with that name and an event during the 10-year search range and in the location supplied. Please limit search ranges to the last 100 years. If not found, I will email the requestor to that effect. Please include only one search for each email.

If an individual is found that matches the search criteria, I will email the requestor indicating that an individual is found based on the search criteria provided. I will also request the contributor of the information to contact the requestor at his/her email address about the person of interest. It will be up to the contributor to contact the requestor as I cannot divulge information to the requestor due to privacy constraints. If additional clarification is needed about the search requested, I will contact the requestor for that clarification.

Contact me at szalewski2000@yahoo.com if you have any questions.
